

Roxanne Gould

Roxanne joined ANA\C in July 2015. Since 1987, Roxanne has built an extensive resume with a particular focus on technology, financial, consumer affairs, health care and privacy issues culminating into the establishment of Roxanne Gould Government Relations in 2013.

Her civic involvement includes participating on the board of San Francisco League of Women Voters, Institute of Government Advocates, People Reaching out, in addition to acting as Chair of Capitol Network and serving as President for the Sacramento YWCA, and most recently joining the Board of the American Red Cross Northern Chapter.

In the past 17 years, Ms. Gould has been and continues to be one of the lead advocates for the technology sector. As the Senior Vice President of Tech American (the leading U.S. technology association), Roxanne was at the forefront of educating government regulators and the legislature regarding the numerous benefits the technology community has to offer – stalling legislative efforts that would impede those benefits.

Roxanne has established herself as a well-respected and effective advocate with strong relationships in all levels of California government and is committed to giving back to the community. She has provided advocacy support for ANA\C for the past 3 years and is honored to have the opportunity to play more active role in advancing ANA\C's legislative agenda.
